Her Majesty The Queen
Building Façade Restoration
and Conservation

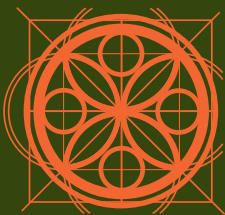

Fleet House - Holborn London

Winner of the 1st prize at the European Commercial Property Awards for Skidmore, Owings & Merrill Architects. The design incorporates granite plinths beneath the column clusters that support the building.

These polished granite 'moon pads' are also intended as benches for passers by. Manufactured in Italy to very exacting dimensions, PAYE supplied and fitted the 'pads' using specialist lifting equipment to ease them into place.

In addition PAYE laid the granite flooring and clad the feature walls to the reception area in Portland Roach Limestone.
