Millennium Seed Bank

The Wellcome Trust Millennium Building is home to the Millennium Seed Bank Project. Located at Wakehurst Place, West Sussex it provides underground storage vaults, scientific research laboratories and public exhibition space for the Royal Botanic Gardens.

PAYE Stonework designed, manufactured and installed the sandstone wall cladding and paving along with the granite seating and water features.

The contemporary design, attention to detail and clever use of traditional materials provides a fine example of the skill and quality that PAYE Stonework can provide.
