

By appointment to
Her Majesty The Queen
Building Façade Restoration
and Conservation

St Georges, Tuffnell Park

St Georges' is an historic Grade 2 listed circular building based on a 5th Century Greek church and also modelled on Shakespeares' Globe Theatre. It was built in 1867 as a place of worship. In the 1960s St Georges Church was built nearby, as a better space for religious services, and the building was sold to a private individual who ran it as a theatre.

The building had been left unused and neglected for more than four years until sold again for transformation from a redundant theatre back to its original use as a place of worship, whilst accommodating the needs of the wider community.

PAYE were appointed as main contractor to complete wide-ranging external repairs including the design and installation of an extremely complex access scaffolding, stone repair and cleaning, extensive re-roofing including the tower and reinstatement of stained glass windows to the leaded lights.
