Building Façade Restoration
and Conservation

Fortnum and Mason

After almost three hundred years of trading, the history of Fortnum and Mason is still being written.

PAYE Stonework and Restoration were appointed by Willmott Dixon to construct the intricately detailed front elevation which is comprised of Portland limestone window surrounds and cornices of red rubbed bricks with joints not exceeding 2mm.

The new facade typifies both PAYE Stonework and Fortnum and Masons long tradition of excellence and high standards of design, quality and craftsmanship.
